

**PRESS RELEASE**

**FOR IMMEDIATE RELEASE**

**Aug 21st 2015**

**Molecular Pathology Laboratory Network Receives its Initial Accreditation from A2LA**

**Maryville, TN – Molecular Pathology Laboratory Network (MPLN)** is pleased to announce that they have been granted ISO 15189:2012 accreditation by the [American Association for Laboratory Accreditation \(A2LA\)](#), after a thorough assessment and review of its quality management system and competence to perform clinical testing.

This achievement of A2LA accreditation demonstrates an organization’s competence to manage and perform the activities defined by its A2LA Scope of Accreditation A2LA Certificate 3765.01. These activities include the following specialties and subspecialties Infectious Disease, Clinical Cytogenetics, Flow Cytometry and Pathology (Histopathology and Molecular Pathology)

Assessment by the American Association for Laboratory Accreditation (A2LA) ISO 15189 Accreditation Program is provided by ILAC MRA signatory in the US and is accepted internationally.

**ABOUT A2LA:**

A2LA is the largest U.S.-based, multi-discipline accreditation body with over 35 years of experience providing internationally recognized accreditation services and quality training. A2LA’s world-class accreditation services encompass testing and calibration laboratories, medical testing laboratories, inspection bodies, proficiency testing providers, reference material producers and product certification bodies. Organizations are accredited to international standards and field-specific requirements developed with government and industry collaboration. A2LA also offers a wide variety of both public and private on-site training programs to complement the various accreditation programs.

**About MPLN**

Molecular Pathology Laboratory Network, Inc. (MPLN) is an ISO15189 and CAP accredited, and CLIA certified high complexity laboratory specializing in Genomic Solutions and Molecular Anatomic Pathology testing for hematologic and solid tumor oncology. We provide an expanding menu of molecular diagnostics, specialty anatomic pathology, flow cytometry, and cytogenetic testing to uniquely support our clients in pathology groups, hospitals, medical laboratories and physician groups nationwide. MPLN specializes in oncology and women’s health testing, and excels by utilizing highly qualified physicians and innovative technologies, all backed by unparalleled service to meet diagnostic challenges in a timely, cost-effective manner.
